

Toshiba Satellite C850 Thermal Paste Replacement

Toshiba Satellite C850 Thermal Paste Replacement

Written By: ZFix

INTRODUCTION

How to apply thermal compound, paste, grease on the main CPU.

[video: <https://www.youtube.com/watch?v=SIVq6ZC01tc>]

TOOLS:

- [Isopropyl Alcohol](#) (1)
 - [Arctic Silver Thermal Paste](#) (1)
-

Step 1 — Thermal Paste

- Use a lint-free cloth to clean the old thermal compound.
- ❗ If the thermal compound is solidified, you can use a flat end of any plastic tool to scrape it off
- Use again cloth with isopropyl alcohol to clean the Thermal surface.

Step 2

- Use the same technic to clean the surface of the processor from the old thermal compound.
- ⚠ Be carefully, if you don't want to break the CPU.

Step 3

- Dispense a small amount of thermal compound.
- Using a plastic finger protector, glove or a plastic bag on your finger and spread the paste evenly across the surface.
- Another way to spread the compound is by using a plastic card.

Step 4

- That's all.
- .
- .
- .
- .
- Did you do it successfully?

To reassemble your device, follow these instructions in reverse order.
